Sava Re operates in more than 120 reinsurance markets worldwide. It has a very small share of the global reinsurance market.

* The market share has been calculated on the basis of premiums written in the Slovenian market (excluding premiums of the Croatian branch of Zavarovalnica Sava and excluding FoS business) using data published by the Slovenian Insurance Association (excluding pension annuities and contributions to pension funds).

** 1–9/2025 as data for the full year 2024 have not yet been published.

*** 1–12/2024 as more recent data not available.

Number of claims reported online	300,120	250,433	-16.6%
Group's ESG integrated investments as at 31/12	23.6%	24.8%	+1.2 pp
Social aspect			
Number of employees as at 31/12 (full-time equivalent basis)	2,892.9	2,805.6	-3.0%
Women as % of all employees as at 31/12	60.0%	60.0%	0.0 pp
Employee turnover rate	16.2%	12.8%	-3.4 pp
Average hours of employee training	20.5	28.6	+39.5%
Hearth for the World– corporate volunteering (no. of hours)	6,574	7,985	+21.5%
Governance aspect			
Women in management bodies as %	32.0%	40.0%	+8.0 pp
Women in supervisory bodies of Group companies as %	20.0%	24.7%	+4.7 pp

We compare CO₂ emissions to 2022, our baseline year for monitoring the strategic decarbonisation target.

We build long-term corporate social responsibility in continuous dialogue with our stakeholders, supporting global sustainability goals, with a particular focus on climate action and the good health and well-being of our customers and employees.

02

SEGMENT
REPORTING

Non-life, EU: more favourable claims experience and growth in business volume

Gross premiums written

€589.7m

+6.3% ↔ 2024

- Growth mainly in the **motor segment** due to an increase in both the number of policies sold and the average premium
- Growth also in residential and commercial **property business**

Profit before tax

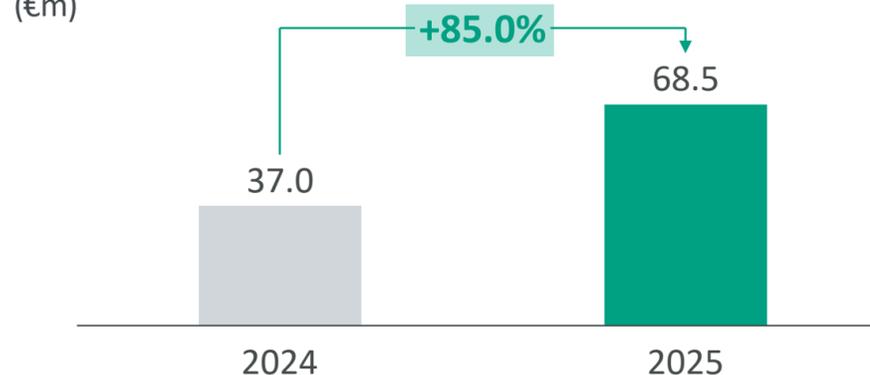

€79.2m

+64.2% ↔ 2024

Insurance result

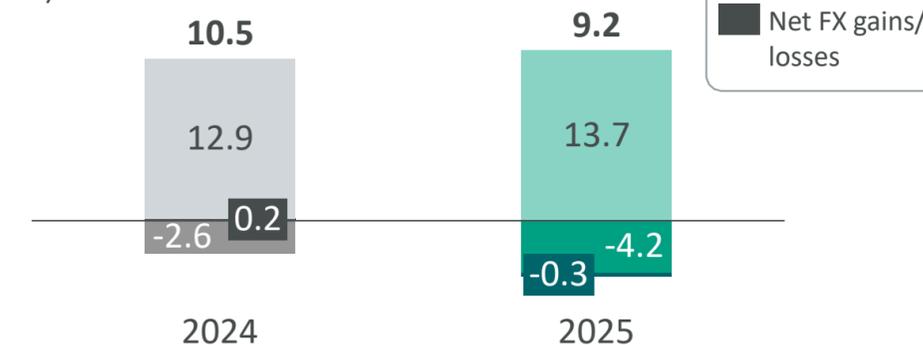

(€m)

- More favourable experience in weather-related claims and other claim categories
- Higher insurance revenue driven by increased business volumes

Finance result

(€m)

- Better investment result reflecting growth in interest income due to cash flows and higher-rate investments
- Lower insurance finance result due to growth in the insurance portfolio and credit-risk effects from reinsurance operations

Combined ratio

- More favourable claims experience

Life, EU: Business volume growth despite declining portfolio of traditional savings policies

Gross premiums written

€199.2m

+4.8% ↔ 2024

- Premium growth in **unit-linked** and **risk policies**
- Higher top-up premiums on existing policies

Insurance result

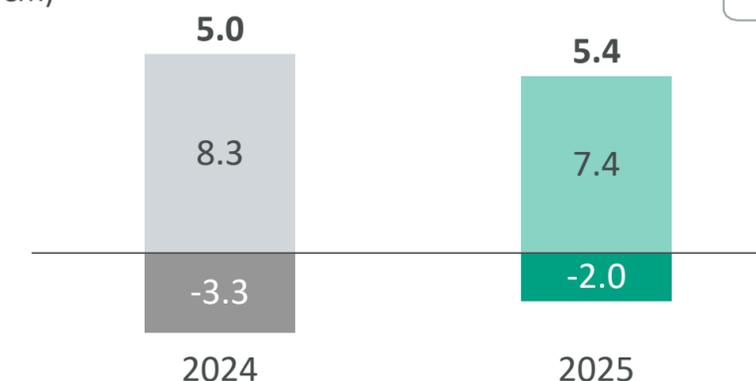

(€m)

- Insurance result broadly in line with the previous year

Finance result

(€m)

- Reduced insurance finance result and investment result (due to lower interest income), both driven by the portfolio decline caused by maturing traditional life savings policies

Profit before tax

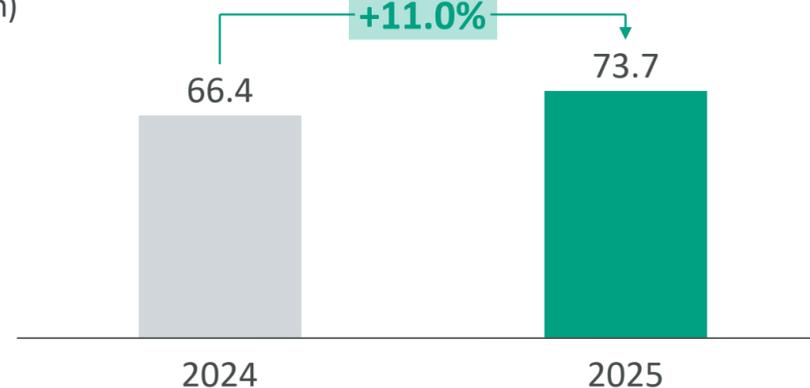

€21.4m

+3.8% ↔ 2024

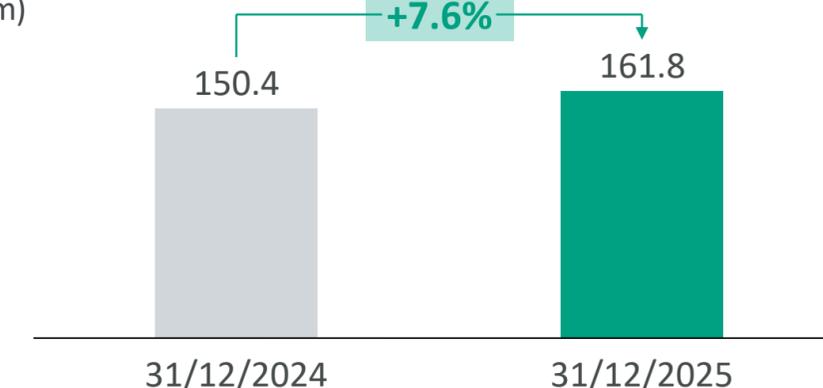

Insurance revenue

(€m)

CSM

(€m)

Reinsurance: strong growth in business volume

Gross premiums written

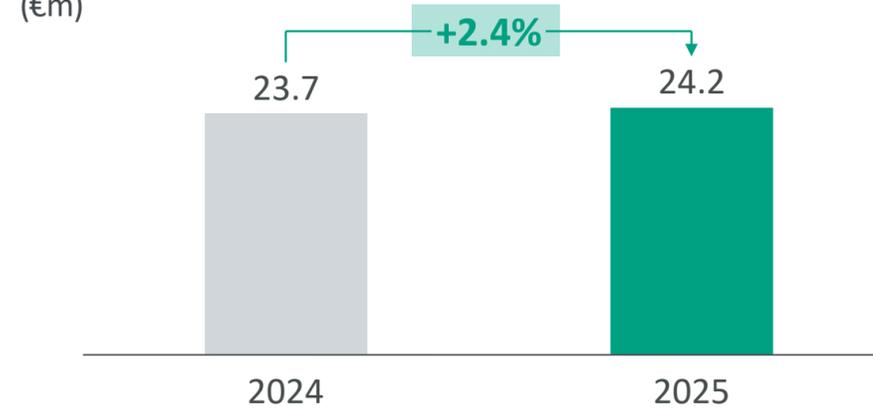

€156.3m

+23.2% ↔ 2024

- Gross written premiums grew, **driven by new opportunities** in selected markets and increased participation in existing contracts

Insurance result (€m)

- Insurance result at roughly the same level as in the previous year

Finance result (€m)

- One-off impacts on the investment result
- Lower insurance finance result, reflecting growth in business volume and credit-risk effects from reinsurance operations

Profit before tax

€23.3m

-7.0% ↔ 2024

Combined ratio

- The combined ratio has remained extremely favourable compared to the long-term average

Non-life, non-EU: more favourable claims experience and growth in business volume

Gross premiums written

€132.5m

+14.9% ↔ 2024

- Growth in **motor business** due to higher average premiums and more policies sold
- Growth in **property business**, driven by increased sales of policies through new channels

Profit before tax

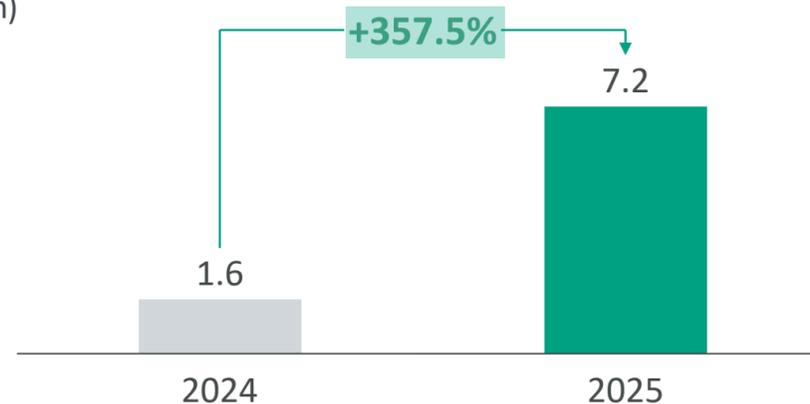

€12.0m

+95.9% ↔ 2024

Insurance result

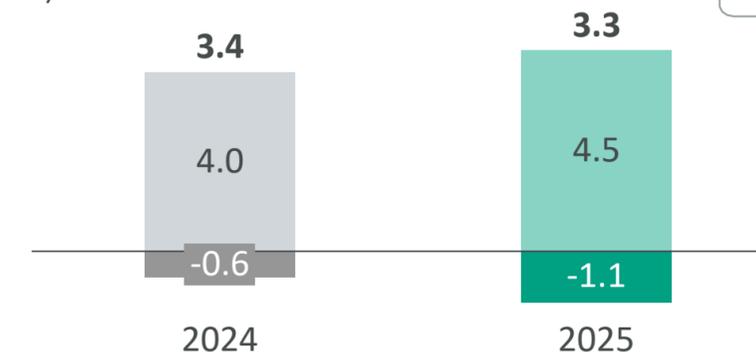

(€m)

- More favourable claims experience
- Insurance revenue growth in line with business volume

Finance result

(€m)

- Higher investment result due to increased interest income due to cash flows and gains on the sale of investment properties
- Lower insurance finance result, reflecting growth in the insurance portfolio

Combined ratio

- More favourable claims experience and revenue growth

Life, non-EU: double-digit growth in business volume

Gross premiums written

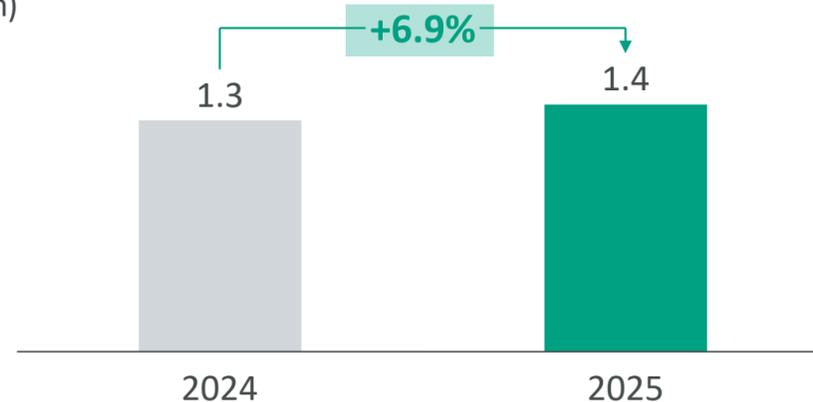

€15.0m

+13.7% ↔ 2024

- Premium growth in **unit-linked** and **risk policies**

Insurance result

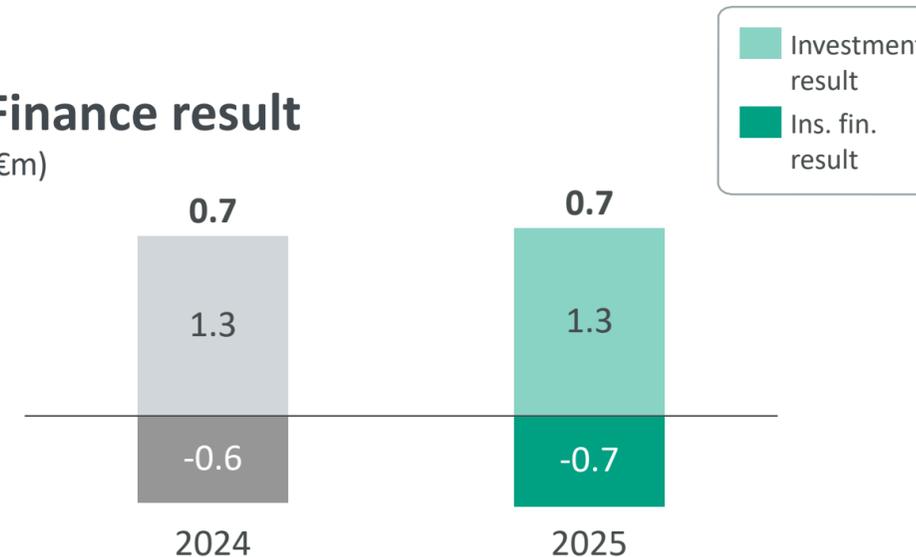

(€m)

- Improved insurance result as a result of revenue growth

Finance result

(€m)

- Finance result broadly unchanged year on year

Profit before tax

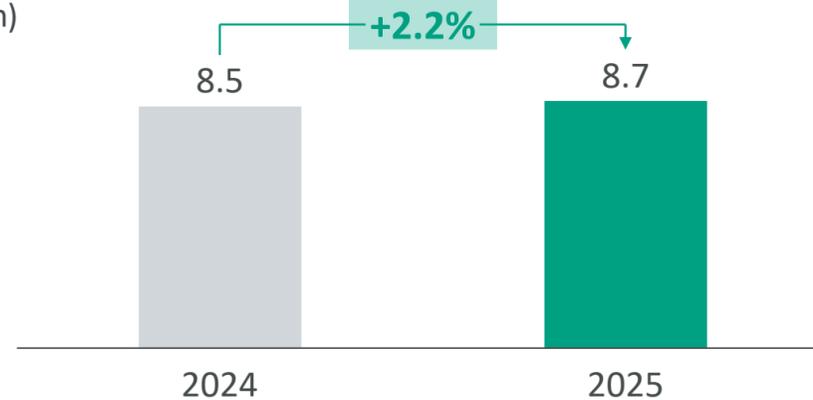

€1.9m

-22.8% ↔ 2024

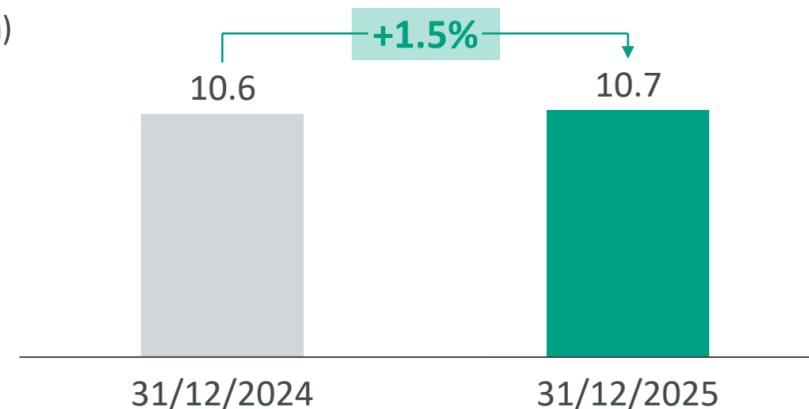

Insurance revenue

(€m)

CSM

(€m)

Pensions and asset management: robust growth in fund inflows

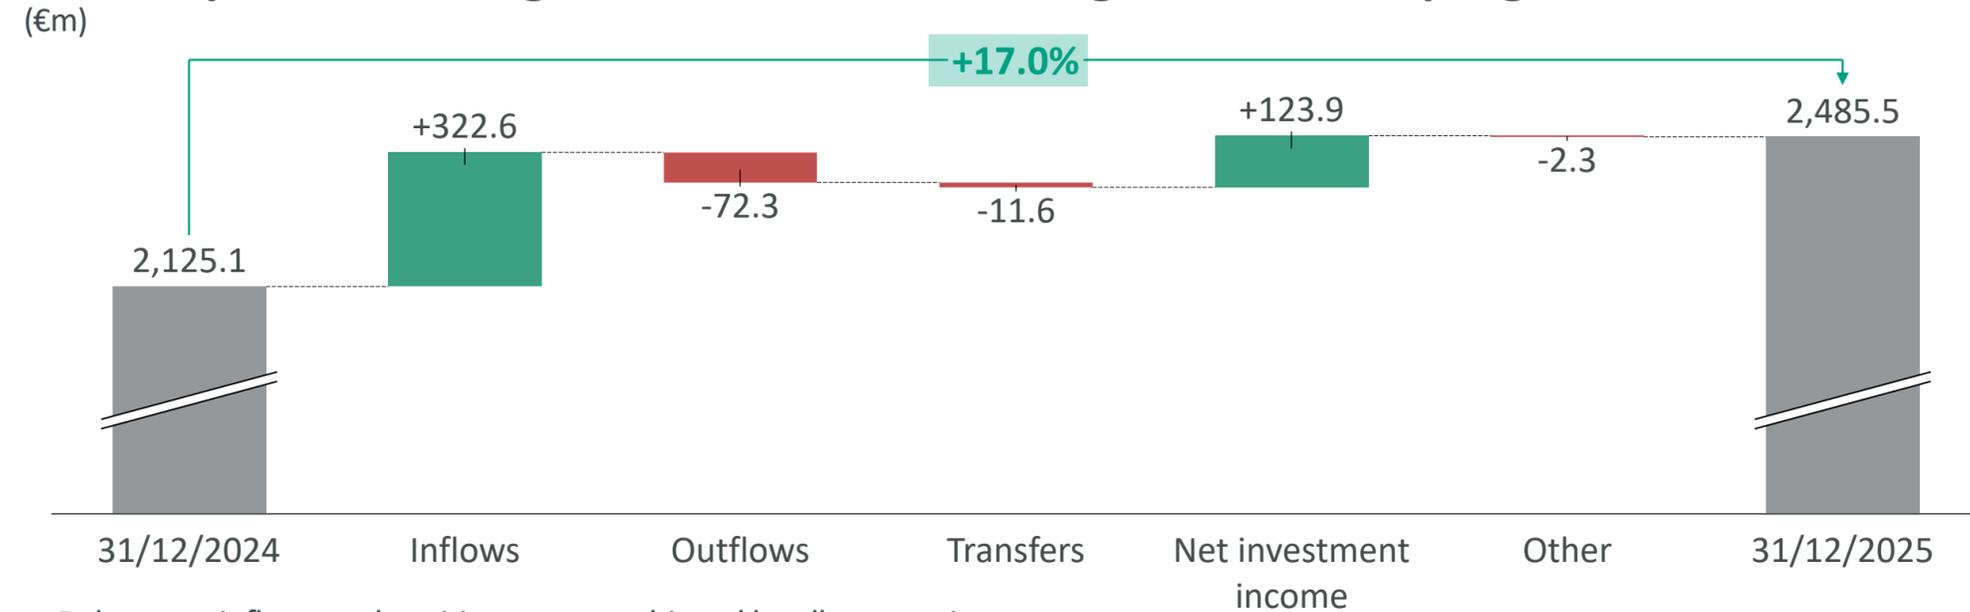

Revenue from asset management

€27.5m

+16.4% ↔ 2024

- Increase in asset management revenue driven by higher assets under management

AuM in pension savings funds and asset management funds progression

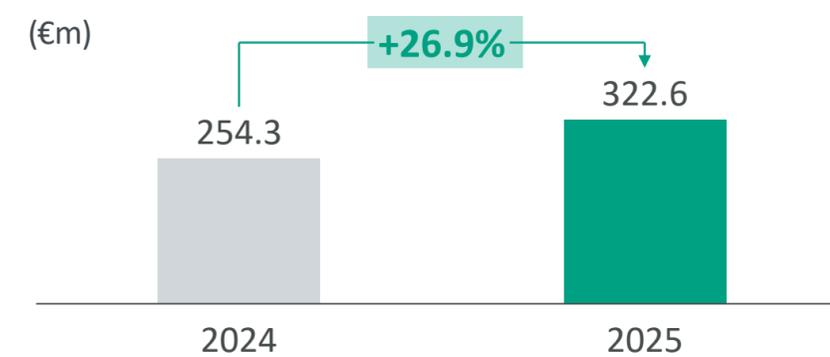

- Robust net inflows and positive returns achieved by all companies

Profit before tax

€11.1m

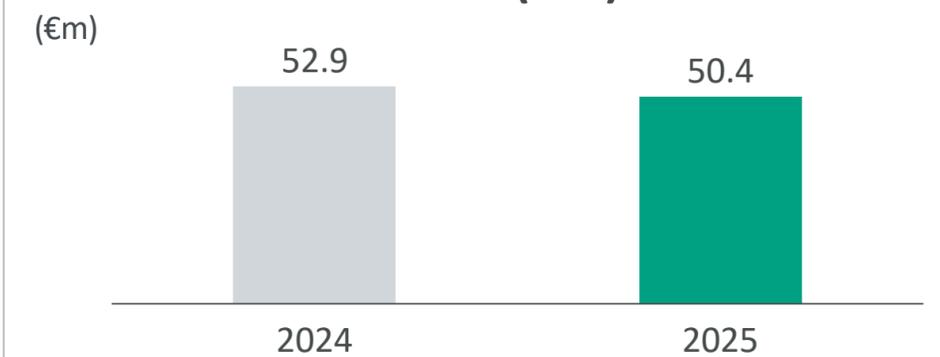

+22.8% ↔ 2024

Funds inflows

- Stronger sales and marketing activities

Cost-to-income ratio (CIR)

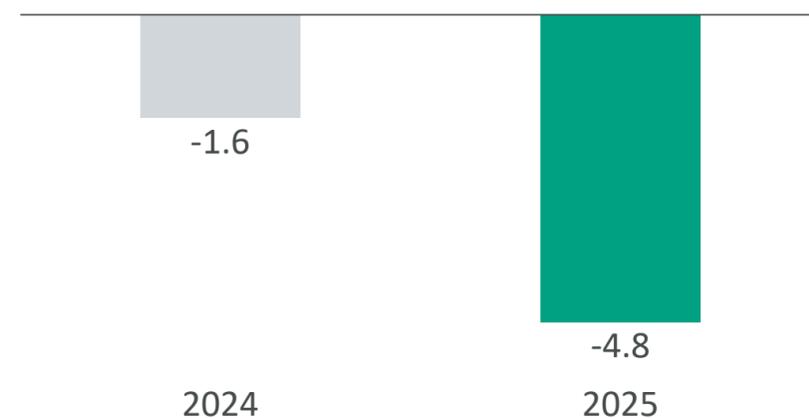

- Strong revenue growth

Other: impact of interest expense on subordinated bonds

Profit or loss before tax

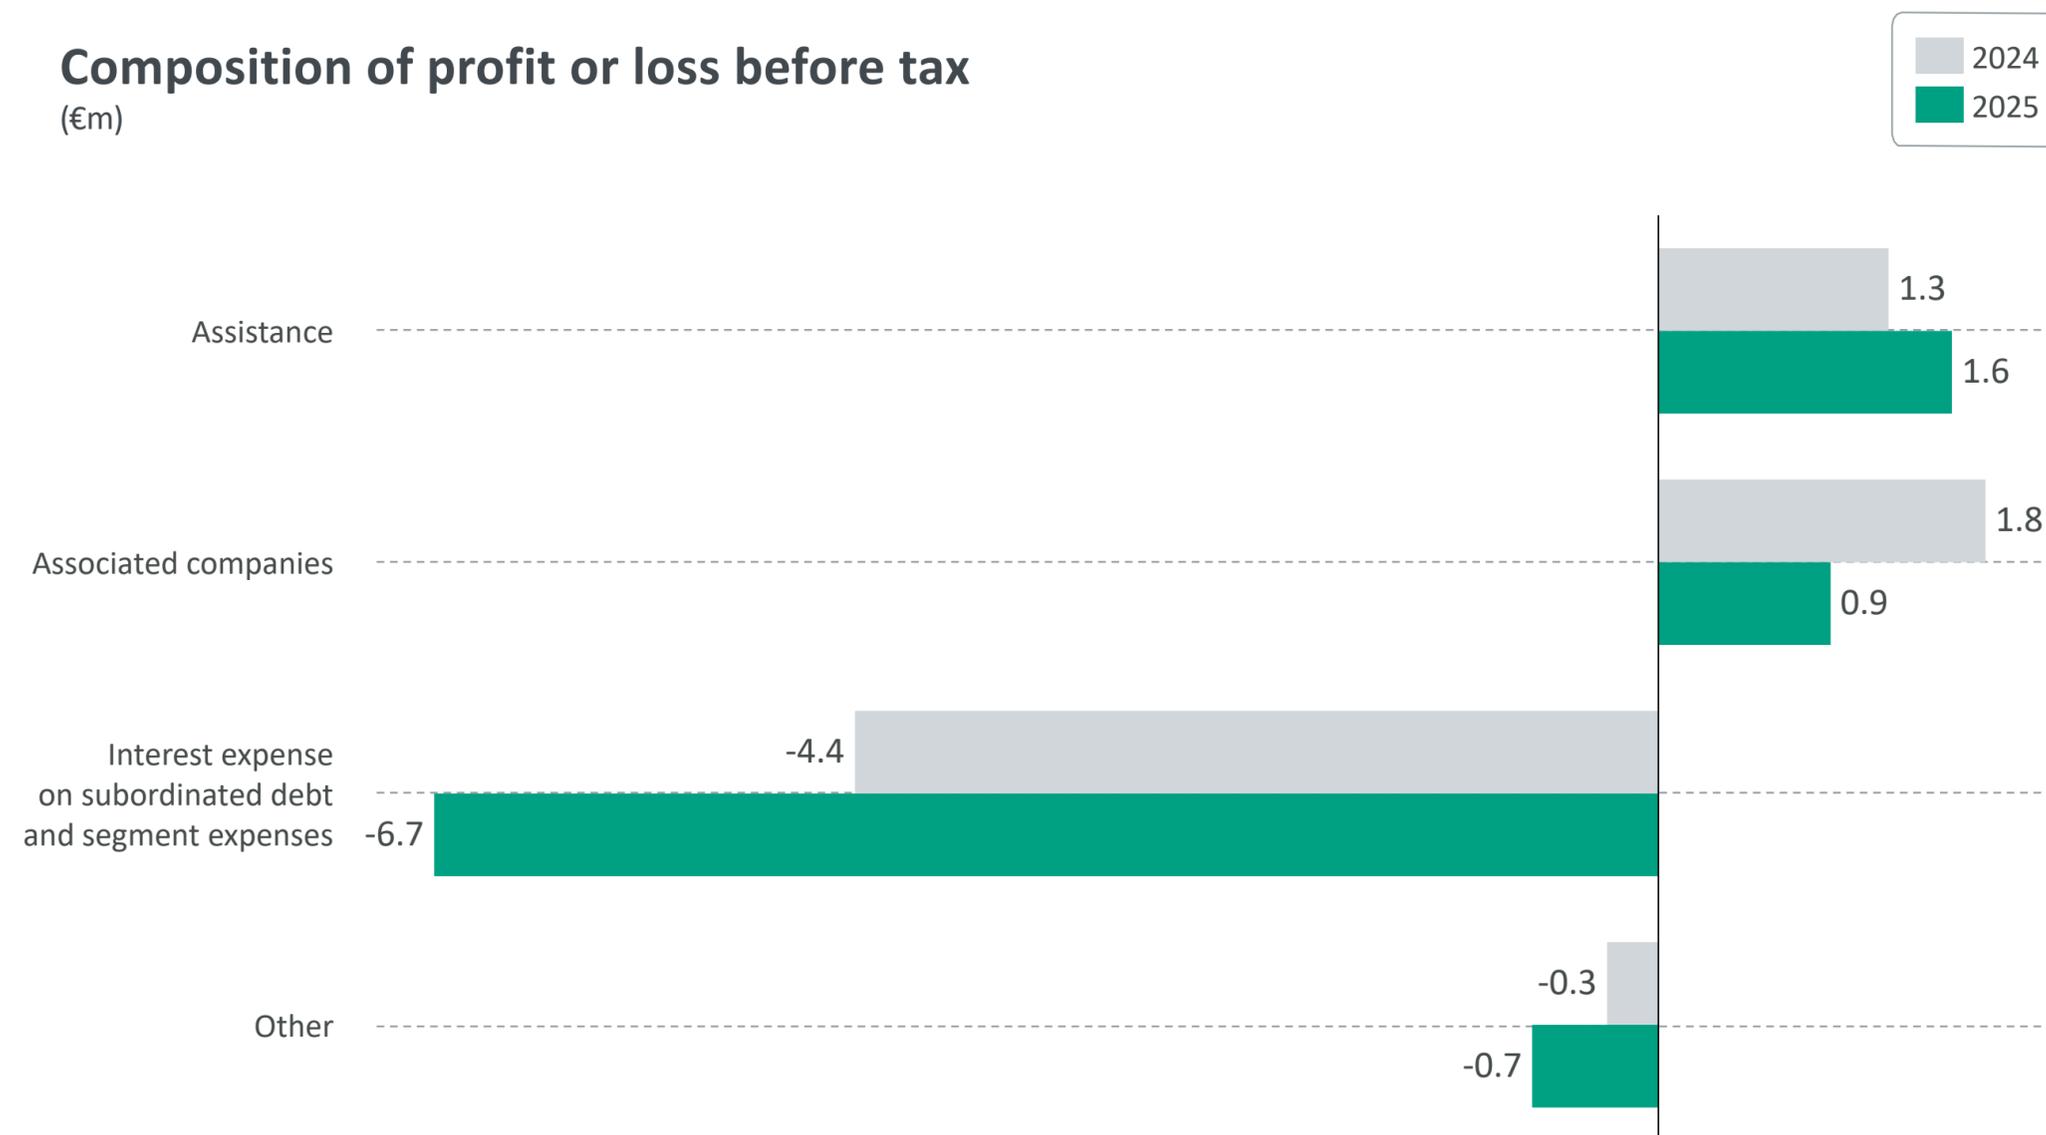

(€m)

- Lower profit, mainly due to increased interest expenses as a result of subordinated debt issued in the second half of 2024

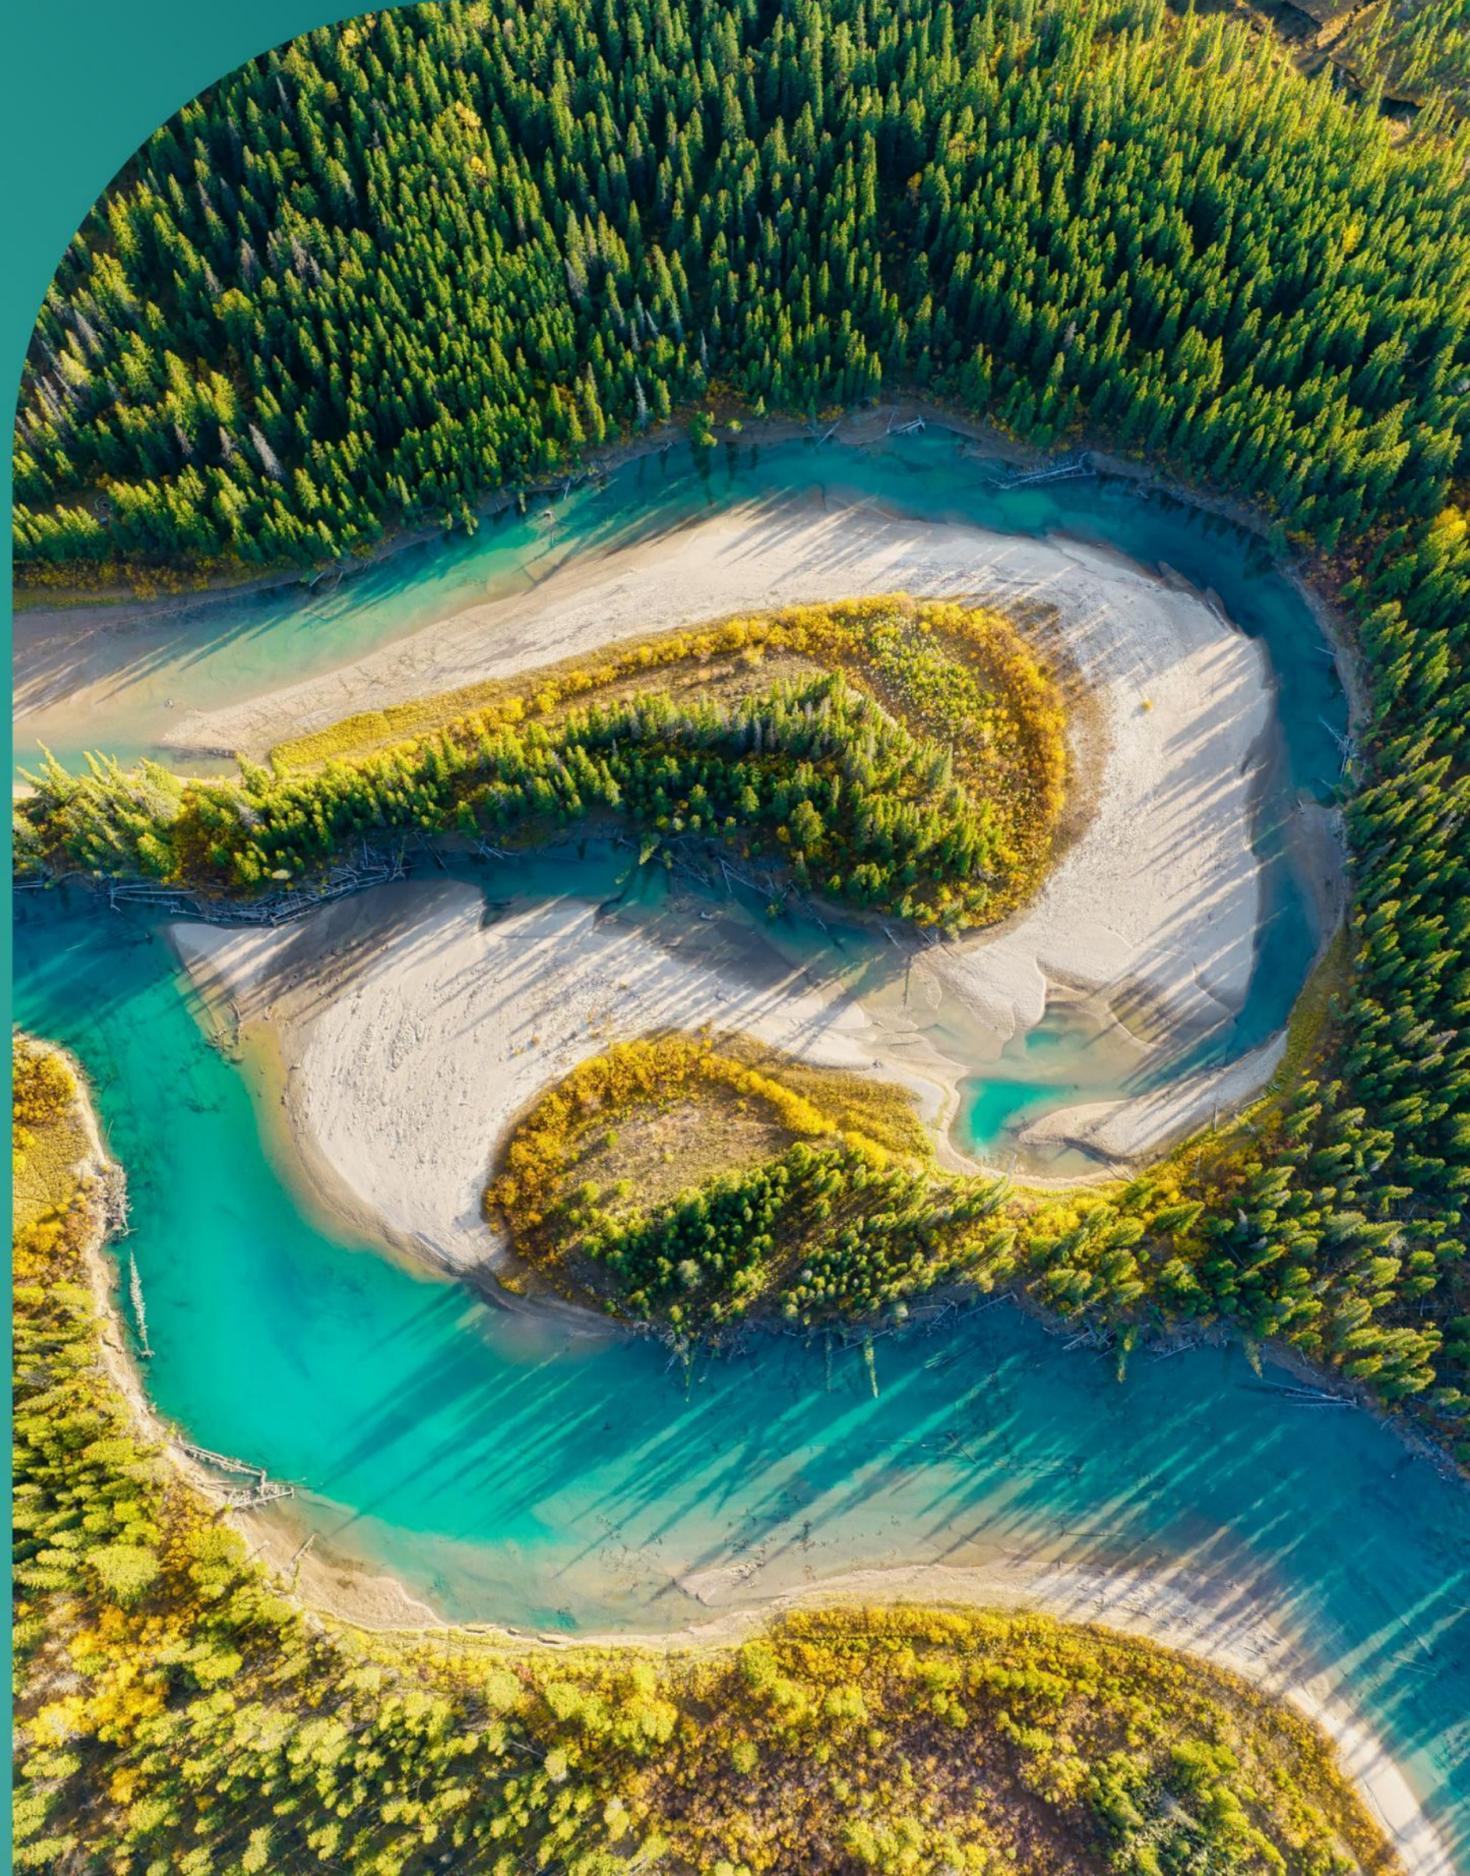

Composition of profit or loss before tax

(€m)

03

FINANCIAL INVESTMENTS

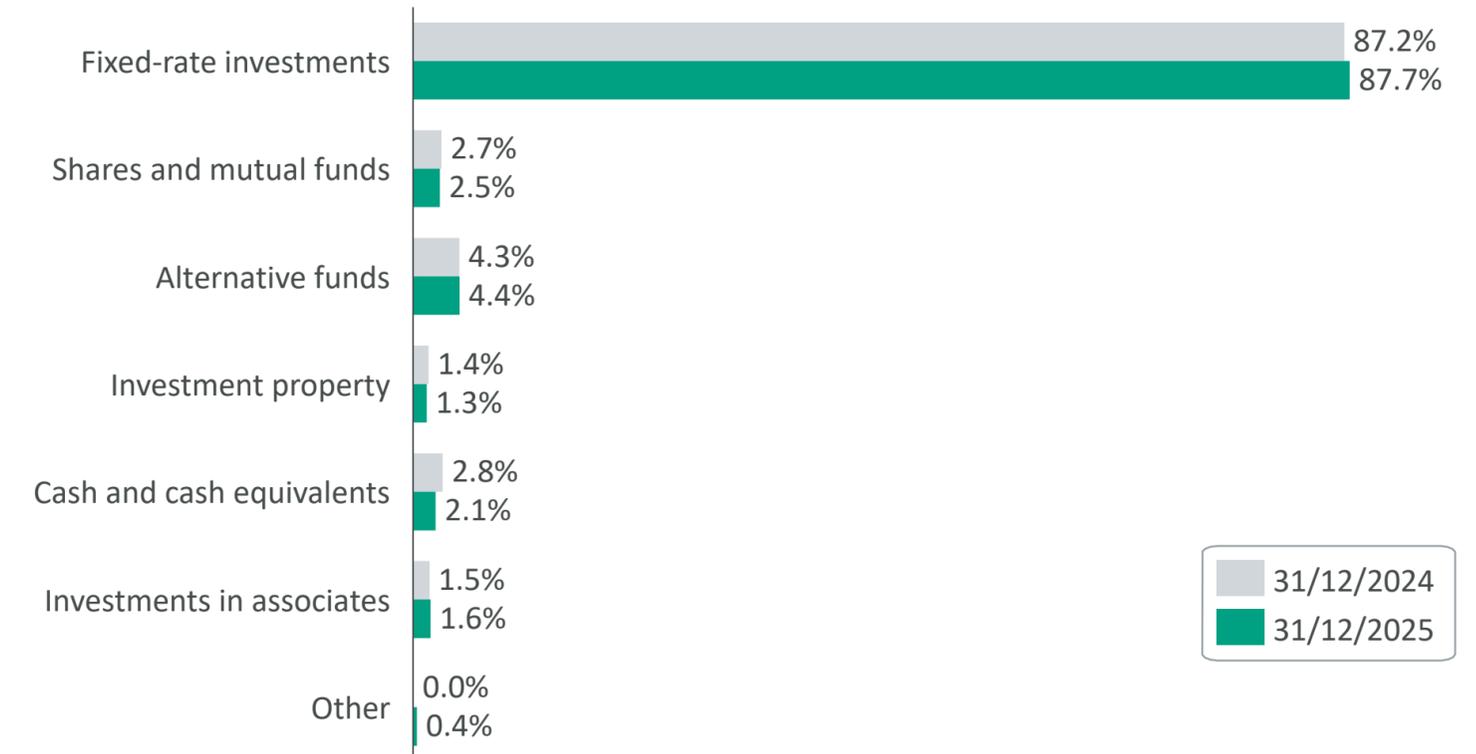

Large share of fixed-income investments

Investment portfolio

€m	31/12/2024	31/12/2025	Change
Fixed-income investments	1,453.5	1,547.6	94.2
Government bonds	922.7	946.7	24.0
Corporate and financial bonds	503.4	570.0	66.6
Deposits	27.3	30.9	3.6
Shares and mutual funds	44.4	44.3	-0.1
Shares	23.5	24.3	0.8
Mutual funds	20.9	20.0	-0.9
Alternative funds	72.4	77.0	4.7
Investment property	24.1	22.7	-1.5
Cash and cash equivalents	46.2	37.4	-8.9
Investments in associates	25.6	29.1	3.4
Other	0.7	6.5	5.8
Total investment portfolio	1,666.9	1,764.6	97.7

Composition of investment portfolio

- Maintaining a safe and liquid portfolio through investments in high-rated government, corporate and financial bonds
- Greater focus on corporate and financial bonds
- Strong cash flow from principal activities
- Reinvestment yield for the fourth quarter at approximately 2.7%

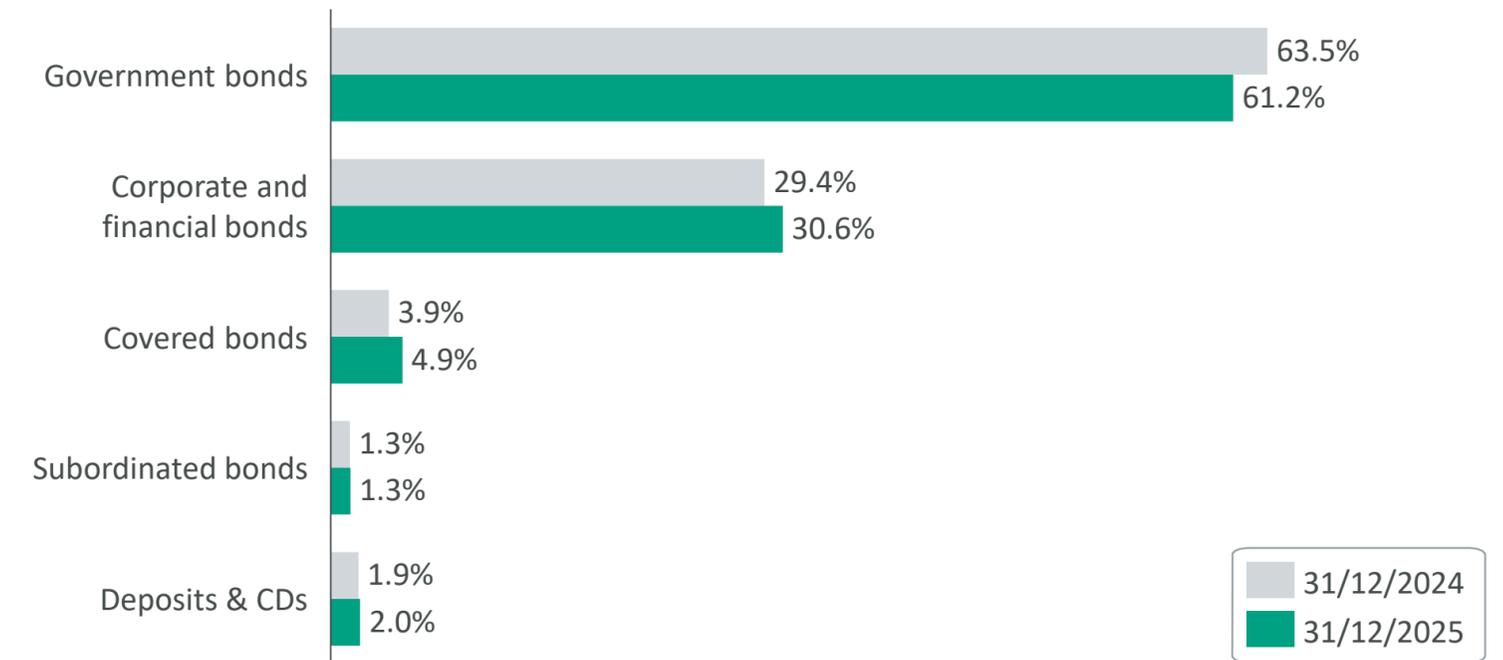

The fixed-income investment portfolio is shown net of the assets held for the benefit of policyholders who bear the investment risk.

Large share of government bonds

Fixed-income investments

€m	31/12/2024	31/12/2025	Difference
Fixed-income investments	1,453.5	1,547.6	94.2
Government bonds	922.7	946.7	24.0
Corporate and financial bonds	427.2	474.2	47.0
Covered bonds	57.2	75.2	18.0
Subordinated bonds	19.0	20.6	1.6
Deposits	27.3	30.9	3.6

Composition of fixed-income investments

- The absolute and structural shift reflects reinvestment of maturing government bonds into higher-rated corporate bonds to improve returns.

The fixed-income investment portfolio is shown net of the assets held for the benefit of policyholders who bear the investment risk.

Net investment income and portfolio rate of return

€m	2024	2025	Change	Index
Net investment income	38.5	36.8	-1.7	95.5
Interest income	27.5	32.0	4.5	116.3
Change in fair value of FVTPL assets	3.5	4.0	0.5	113.4
Dividends of equity investments and income of alternative funds	4.0	2.7	-1.3	68.3
Income from associate companies	1.8	0.9	-0.8	52.6
Other income/expenses from investments	1.6	-2.9	-4.6	-178.1
Rate of return	2.5%	2.1%	-0.4 pp	-

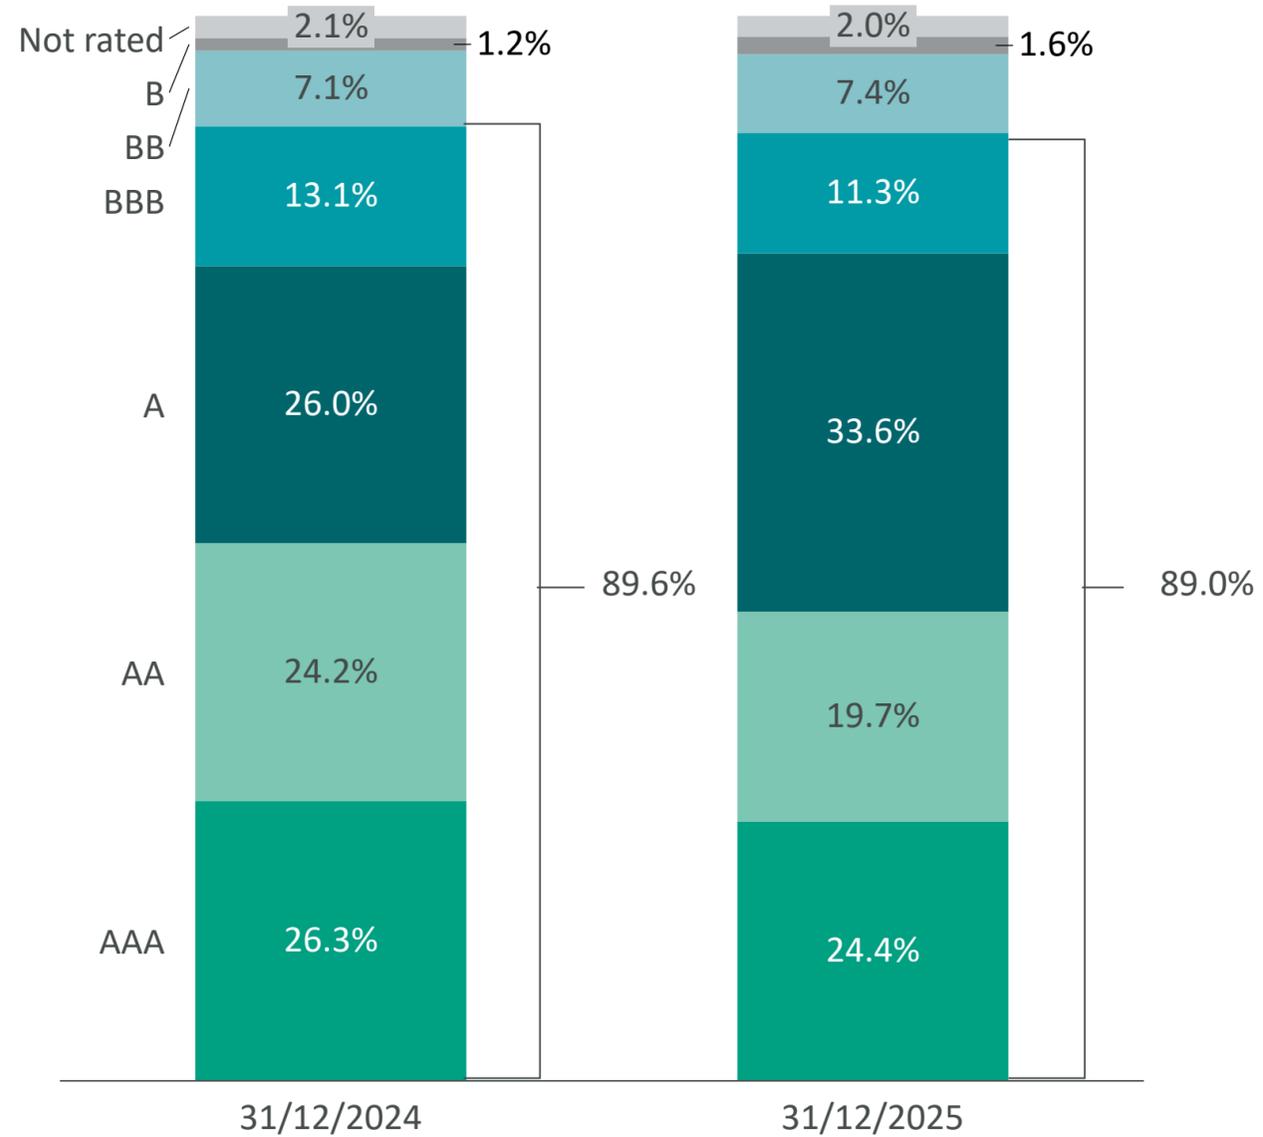

- Increased interest income driven by higher-rate investments and strong cash flows
- Higher fair value revaluation gains on equity investments than in 2024
- Other income/expenses also affected by the disposal of a minor portion of the bond portfolio bearing negative or very low interest rates to improve future returns

The fixed-income investment portfolio is shown net of the assets held for the benefit of policyholders who bear the investment risk.

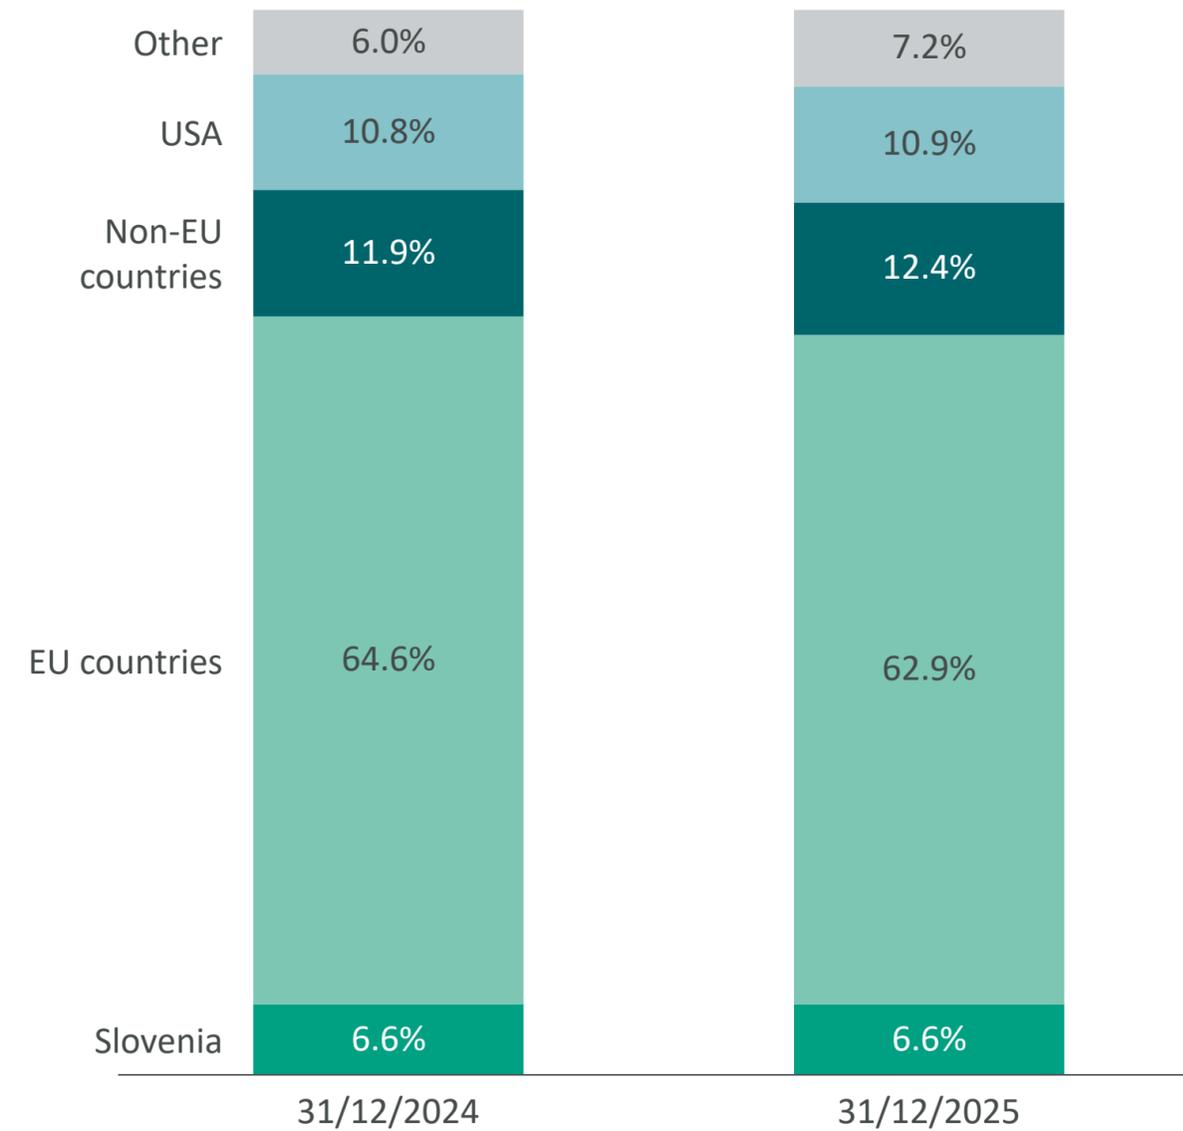

Secure and stable investment portfolio

Fixed-income investments by credit rating

Fixed-income investments by region

The fixed-income investment portfolio is shown net of the assets held for the benefit of policyholders who bear the investment risk.

THANK YOU.

Glossary of selected terms and computation methods for indicators

Assets under management. Assets of pension companies' pension funds, assets of mutual funds managed by the Group's asset management company and assets of policyholders who bear the investment risk.

Book value per share. Ratio of total equity to the weighted average number of shares outstanding.

Business volume. Gross premiums written and revenue of non-insurance services.

CSM. The **contractual service margin** is an estimate of the unearned profit on groups of insurance contracts that has not been recognised in the income statement at a reporting date because it relates to future services.

Dividend yield. Ratio of dividend

per share to the rolling average price per share in the 12-month period.

Expense ratio. Attributable expenses plus non-attributable expenses plus net operating income or expenses plus net other income or expenses plus net impairment losses and reversals of impairment losses on non-financial assets as a percentage of insurance revenue. The Group's ratio is calculated for the reinsurance and non-life insurance operating segments. In the reinsurance segment, insurance revenue is reduced by the costs of fixed commissions.

Gross premiums written. The total premiums on all policies written or renewed during a given period, regardless of what portions have been earned.

Investment portfolio. It consists of financial investments, investments

in associates, investment property, and cash and cash equivalents. It does not include investments of policyholders who bear the investment risk.

Loss ratio. Insurance service expenses, excluding operating expenses, plus net result from reinsurance contracts held as a percentage of insurance revenue. The Group's ratio is calculated for the reinsurance and non-life insurance operating segments.

Net investment income of the investment portfolio. The investment result plus the share of profit or loss of subsidiaries and associates. Calculated excluding returns on life insurance policies where policyholders bear the investment risk, the impact of exchange differences and expenses on subordinate debt.

Return on equity (ROE). Net profit

for the period as a percentage of average equity during the period, excluding accumulated other comprehensive income.

Return on the investment portfolio. The ratio of net investment income from the investment portfolio to average invested assets. The investment portfolio position includes the following items of the statement of financial position: investment property; investments in associates and subsidiaries; financial investments, excluding unit-linked assets; and cash and cash equivalents other than those relating to unit-linked life insurance contracts. The average balance is calculated based on the figures as at the reporting date and as at the end of the previous year.

Solvency ratio. The ratio of eligible own funds to the solvency capital requirement, expressed as a percentage. A solvency ratio in

excess of 100% indicates that the firm has sufficient resources to meet the solvency capital requirement.

Total shareholder return. The ratio of the difference between the share price at the end and beginning of the period, plus the dividend, to the share price at the beginning of the period.

Cautionary statements and notes

Forward-looking statements

This document may contain forward-looking statements relating to the expectations, plans or goals of the Sava Insurance Group (the Group), which are based on estimates and assumptions made by the management of Sava Re (the Company). By their nature, forward-looking statements involve known and unknown risks and uncertainties. As a result, actual developments, in particular performance, may differ materially from the expectations, plans and goals set out in this document; therefore, persons should not rely on forward-looking statements.

Duty to update

The Group and the Company assume no obligation to update or revise any forward-looking statements or other information contained in this document, except to the extent required by applicable laws and regulations.

Alternative performance measures

This document may contain certain alternative performance measures used by the Company's management to monitor the business, financial performance and financial position of the Group and to provide investors with additional information that management believes may be useful and relevant to understanding the Group's results. These alternative performance measures or benchmarks generally do not have a standardised meaning and therefore may not be comparable to similarly defined benchmarks used by other companies. Therefore, such measures should not be considered in isolation from, or in place of, the Group's consolidated financial statements and the related notes prepared in accordance with IFRS standards.

Data not audited

The consolidated financial statements presented in this document are unaudited.

Rounding

All calculations are based on exact figures, including decimals, which is why rounding differences may occur.
